## SUMMARY

Full stack engineer who architects and ships production SaaS systems end to end. Backend-heavy with experience in multi-tenant platforms, edge-first serverless, and secure payment and identity systems.

## CORE SKILLS

Languages: TypeScript, C#, Python

Frontend: SvelteKit, React, Astro · Backend: ASP.NET Core, Node.js, Cloudflare Workers

Data: PostgreSQL, DynamoDB, Cloudflare D1

Infrastructure: AWS, Azure, Cloudflare, Docker, GitHub Actions

Auth/Payments: Entra ID, MSAL, OAuth2/OIDC · Stripe (Billing, Webhooks)

Architecture: Multi-tenant SaaS, Schema-driven generation, Edge-first serverless, Monorepo

Security: RBAC, Secure Sessions, Token Security

## EXPERIENCE

Full Stack Developer - Entergrade Solutions Inc. (Remote) - Dec 2023 – Present

- Built event-driven C# API ingesting Microsoft Teams call data into DynamoDB for downstream analytics; shipped with 90%+ test coverage
- SvelteKit + TypeScript dashboard rebuild, now the standard UI layer across all products
- Implemented SOC2 security controls across the application layer (auth hardening, access review, secure session handling)
- Built MSP-facing product and contributed core modules to unified app shell with centralized Entra ID auth

Founder & Engineer - Fairview Software Inc. - 2024 – Present

- Architected and shipped Fairview Sites, a schema-driven SaaS website platform for trades businesses (Astro, Cloudflare Workers/Pages/D1, Stripe Billing)
- Built end-to-end generation pipeline: intake, schema, template assembly, CI build, edge deployment (Cloudflare)
- Built automated B2B outbound system (Apollo, LLMs, VPS) for autonomous lead sourcing and qualification

Web Developer - Canadian Bar Association (Remote) - 2022–2023

- Built and maintained 13-site platform (Kentico 13, .NET Core, MySQL)
- Developed custom page types, widgets, and RBAC across multi-site system
- Improved accessibility (WCAG) and contributed to shared code standards

Tier 2 Forms Programmer - PBS Systems - 2019–2023

- Built document automation systems for dealership workflows (incl. legacy printer support)
- Shipped internal tooling improving onboarding and operational efficiency
- Mentored junior developers

## EDUCATION

Information Technology Diploma - SAIT (Southern Alberta Institute of Technology)
